

## Specifications

## Auxiliary Contact

### Main

|                              |   |
|------------------------------|---|
| Range                        | UEM5  |
| Device Name                  | AX1(Terminal type )                             |
| Product or Component Type    | Auxiliary contact                               |
| Device Application           | Indcating signal of breaker opening and closing |
| Conventional Thermal Current | 3A  |
| Rated Current                | 0.3A(AC380V)<br>0.15A(DC220V)                   |
| Range Compatibility          | UEM5-100/160、UEM5Z1-100/160、UEM5L-100           |

### Complementary

|                             |               |
|-----------------------------|---------------|
| Wiring Terminal             | Terminal type |
| Number of Auxliary Contacts | 1 Group       |

Note: When the user uses a DC24V shunt release, the power supply must meet the minimum requirement of 50W
