

全自动包胶带机 Full-automatic taping machine

这是一款全自动多轴包胶带机器，效率高、包胶带稳定，绕大骨架可以用8轴的机器，可以绕制层间胶带，也可以绕制挡墙胶带。配置自动上下料选择装置后，可以与自动绕线机实现联机生产。

This is a full-automatic multiple-spindle taping machine with high efficiency and stability. To wind big bobbin, eight-spindle machine can be used. It is also applicable to wind interlayer tape or margin tape. Being equipped with automatic loading and unloading selector, this automatic taping machine can be connected with the winding machine.

型号 (Model)	HFBJD680HFBJD880	
主轴数 Spindle number	6	8
主同转速 Spindle speed (rpm)	2000	
主轴间距 Spindle interval (mm)	80mm	80mm
主轴伺服马达功率 Power of spindle servo motor (w)	400	
最大骨架外径 Max.outside diameter of bobbin (mm)	40	
最大胶带宽度 Max.thickness of tape (mm)	30	
控制系统 Control system	PLC	
电源电压 Power supply voltage (v)	单相 Single-phase AC200-230V , 50Hz/60Hz	
消费电力 Power consumption (w)	900	
压缩空气压力 Compressed air pressure (Mpa)	0.5-0.7	
机器尺寸 Machine size (mm)	1100(W) *1200(D) * 900(H)
