Comprehensive accessories to enable your application!

Characteristics

Powerful Protection

15kA at 1500V for the safety you require in your application

Broad Product Range

IN: 250 – 400A

UN: 750 / 1500V DC

High Endurance

10.000 cycles for peace of mind during the lifetime of the project

Adaptable Product

Shunt Trip + Aux-Contact can be fitted simultaneously, Rotary Handles to enable fitment in enclosures

High Temperature

Operating Temperature up to 80°C,
De-rating curves available

APPLICATIONS

UEM6H is the perfect choice for utility grade inverter and combiner box applications due to efficient size and powerful ratings. Also mode 4 charging applications can be fulfilled.
