

**Hongfa presents:
The comprehensive solution for
your Power Distribution needs!**

UEM5 Family

Powerful and Efficient

IN:10-800A / UN: 400-690V AC

Certified according to IEC/EN 60947-2

www.hongfa.com

ADD: Marie-Curie-Ring 26, D-63477 Maintal, Germany

Hongfa Europe GmbH

TEL: +49-6181-4306-0

E-mail: info@hongfa-europe.com

The solution for all applications: Thermo-Magnetic / Residual Current Detection / Smart MCCB

Characteristics

Powerful Protection

ICU: 35-85kA (400V AC)

Adaptable Product

Shunt-Trip + Aux-contact can be fitted simultaneously

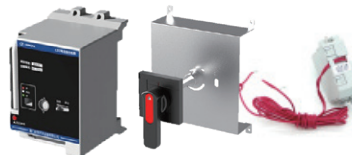

Rotary Handles to enable fitment in enclosures

Motor Drives for remote operation

High Endurance

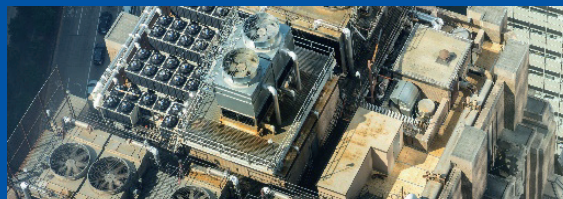

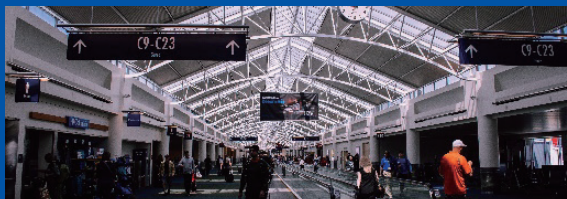

Up to 20000 cycles for peace of mind
during the lifetime of the project

Efficient Solution

Hongfa offers a variety of products:
from fixed thermo-magnetic to
integrated communication.

APPLICATIONS

The UEM5 family of MCCBs is the right choice for commercial and industrial applications such as Main Power Distribution for commercial buildings or machinery.
