

Date: October 18, 2024
 Object: Declaration of China RoHS compliance
 Dear Customer,

HONGFA has been committing to protect the environment and following the requirements of regulations such as *Measures for the Administration of Restrictions on The Use of Hazardous Substances in Electrical and Electronic Products*, *Standard Management Catalogue (the first batch) For The Restricted Use of Electrical and Electronic Products Hazardous Substances* and *A List of Exceptions to The Application of Restricted Substances in The Standard Management Catalogue*, which were listed in Order No. 32 issued by the State General Administration of Quality Supervision, Inspection and Quarantine on January 6, 2016. We guarantee that all the products provided do not contain any of the following substances at a content above the maximum concentration limits, except those application(s) exempted by A list of exceptions to the application of restricted substances in the standard management catalogue.

Types of Hazardous Substance	Maximum Value (PPM)
Pb (Lead)	1000ppm
Hg (Mercury)	1000ppm
Cr6+ (Chromium VI)	1000ppm
PBBs	1000ppm
PBDEs	1000ppm
Cd (Cadmium)	100ppm
Bis (2-ethyl(hexyl)phthalate) (DEHP)	1000ppm
Benzyl butyl phthalate(BBP)	1000ppm
Dibutyl phthalate(DBP)	1000ppm
Diisobutyl phthalate(DIBP)	1000ppm

Note:

HONGFA products are used as accessories for the production of electronic and electrical products. There is no need to use hazardous substances restriction identification on the relay products at present per the requirements of the standard SJ/T 11364-2014 Marking for the restriction of the use of hazardous substances in electrical and electronic product. However, we are willing to provide all the required information for the identification and make the identification if necessary according to the above standards and customer requirements.
