

## Declaration of POPs Compliance

### 持久性有机污染物合规声明

Persistent Organic Pollutants (POPs) are a class of organic chemical substances characterized by long-term persistence, bioaccumulation, semi-volatility, and high toxicity. They can migrate over long distances through media such as the atmosphere and water bodies, posing severe risks to human health and the environment.

持久性有机污染物 (Persistent Organic Pollutants, POPs) 是一类具有长期残留性、生物蓄积性、半挥发性和高毒性的有机化学物质，能通过大气、水体等介质长距离迁移，对人类健康和环境造成严重危害。

On September 25, 2025, the Official Journal of the European Union published the revised regulation (EU) 2025/1930, which amended Annex I of the POPs Regulation (EU) 2019/1021 by adding the restriction on Dechlorane plus (CAS:13560-89-9/135821-03-3/135821-74-8). As a result, the number of restricted substances in Part A of Annex I of the POPs Regulation has increased to 32.

2025年9月25日，欧盟官方公报发布 POPs 法规 (EU) 2019/1021 附录 I 新增得克隆(CAS:13560-89-9/135821-03-3/135821-74-8)限制的修订法规 (EU) 2025/1930。至此，POPs 法规附录 I 的 A 部分限制物质增加至 32 项。

Hongfa attaches great importance to environmental protection, conducted due diligence on the supply chain, and confirmed that 32 persistent organic pollutants were not intentionally added or used in the production and manufacturing process. The products of Hongfa suitable for the EU market also meet the limit requirements for 32 persistent organic pollutants.

宏发重视保护环境，对供应链进行了尽职调查，并确认 32 项持久性有机污染物没有在生产制造过程中故意添加或使用。适用欧盟市场的宏发产品也符合 32 项持久性有机污染物的限值要求。
